

Promobile produces inflatables, inflatable structures and presentation systems. All products are made of high-grade materials. Thus, top quality is guaranteed. This newsletter will provide you with an overview of the options available.

Welcome

Building unique brand positioning, identity and communications will be a challenge for every marketing department in the coming years. The emphasis will be on transferring from functional aspects to psychological ones. The future will be in the hands of the companies with the strongest brand identity. Promobile will help you carve out that future for your organisation.

Global success

We provide a marketing tool with an unprecedented eye-catching value. We have designed a number of successful concepts that have made a name for themselves all over the world. We have created several challenging inflatable products for the recreational market. We have also recently started producing our newly developed inflatable exhibition booth - ideal for presentations.

Promobile will work with you to develop the marketing tools you need. We will guide you through the whole process, from development through realisation. We focus on your needs and requirements to reach our ultimate goal: your success.

Flexible customisation

We can realise even the largest projects with no problem, thanks to our high levels of quality and flexibility when it comes to customised work that meets your exact needs. One way our flexibility stands out is our delivery time: if you need our product to make an impact on your sector, we can produce and deliver the product in just a few days!

All our products have the advantage that they can be assembled within a few minutes in practically any location. They are also easy to transport. Why do things the hard way? Promobile keeps it simple.

Would you like to work together with a reliable supplier?

Skydancerskytubes

The inflatable SkyDancers and SkyTubes have become increasingly more popular over the last few years due to their interactive operation. We have been working at Promobile to make these products even better by employing materials other than the standard spinnaker and by implementing new printing technologies. This not only results in an uncommonly environmentally friendly product, the printing is also razor sharp and permanent.

Recent projects

Tentstands

Promobile can also assist you with temporary roofing. Think about different models of inflatable, air supported domes that are ideal for providing temporary shelter for an event, an exhibition, concert or activity.

We not only have standard models, but also luxury domes. Whether you need a background to show a product or simply a cover for your artwork, everything is possible when it comes to producing an inflatable sales booth. The ideal products for all sales and promotional activities. Available in all possible shapes and models, assembled in just minutes in any location.

Bouncycastleles

Bouncy castles are wonderful. Even as an adult, you can still reminisce about how much fun it was to play in the air-filled paradise. Now you can be the organiser of such a simple pleasure. Thanks to your own bouncy castle, your brand name will be brought to the attention of others in a positive manner.

Promobile has a standard assortment and also produces bouncy castles in any desired shape or model.

Inflatables

Would you like to give your branding experience a boost? Promobile will help you with an eye-catching component in any shape or size you need. Let your target group experience your brand name in an entertaining manner in an amazing environment!

Tumblingtracks

Promobile Tumbling Tracks is a product line of inflatable gymnastics equipment. We used our customers' expertise as input for the design of these products: trainers, professional and recreational gymnasts and others who are involved in fitness training. The needs, knowledge and experience of our experts contribute to the design of our products.

Air: A big difference

Working with inflatable gymnastics equipment offers a number of advantages compared to today's common models. Air suspension equipment and tracks reduce the risk of injury and are very easy on the joints thanks to their shock absorbing capacity. Sportsmen and women feel free and develop their abilities more quickly and easily.

Sportrecreation

Are you looking for inflatable products for sports and recreational purposes? Promobile has the ideal products for all your sales promotion activities. An inflatable can be designed in any shape or form. It will provide you with eye-catching advertising that will not escape anyone's attention!

We design sports and recreational products in a number of shapes and models, fully customised to our customers' needs and requirements. The ultimate in customisation! Our high level of quality and flexibility are ideal when it comes to realising extremely large projects. All our sports and recreational products are produced using the highest quality materials; thus they are very durable. The products can also be equipped with all possible advertising formulations.

Bannersflags

Banners and flags are remarkable image builders. Your message is conveyed in a positive and lively manner. Passers-by and visitors can't help but notice the message thanks to the motion of waving flags and banners.

Promobile prints banners and flags in full colour by using the latest printing technologies. They are available as single units and can be delivered within just a few days in a number of models and sizes.

The banners can be used both indoors and outdoors for many purposes: announcements, events, construction boards, outdoor advertising boards, backdrops, exhibition booth setups, shops and showrooms.

Thanks to our expertise, we can provide you with expert advice on choice of materials and finishing. Promobile can take charge of the whole process for you - from design to on-site construction.

Exhibitionpresentation systems

Recognition and a professional image are the first requirements when vying for the customer's favour. A Promobile exhibition or presentation system is the ideal tool to win this battle.

If you are looking for a way to present your commercial message with the option to move it to different locations very easily, then Promobile presentation systems are your ideal choice!
